DISAPPEARING CAR REPORT

DATE: April 12, 2024

A United Airlines pilot reported a bizarre incident while descending into San Luis Obispo. The pilot spotted a white vehicle zooming northeast on a road near the airport's south runway, headed straight for a dead-end. Just as it seemed the driver was about to realize their epic navigation fail, a jolt of lightning struck—and poof! The car vanished into thin air, leaving nothing but a trail of confusion and a very perplexed pilot!

Anyone with further information is encouraged to contact ... well, we don't know who can help with this one...
